About Just Music Production

Just Music Production was formed in 2000 by Gary Skyrme – at that time the senior producer with Meridian Records in London. In 2004, Gary and his family moved to Yorkshire and Just Music Production has continued to build an enviable reputation for making first class recordings throughout the country.

Just Music Production specialises in recording amateur groups and has made very successful recordings of all kinds of choirs and ensembles.

Experience you can trust

As well as having over fifteen years' experience of the technicalities of making fine recordings, Gary is a pianist, organist and an experienced choral singer. He has sung with a range of choirs over the last 20 years in concert and on recordings and live radio broadcasts. Performers and directors appreciate the expertise and empathy Gary brings to the recording sessions.

"He knows what I want from the choir, and how to get it. He also knows what he needs from us, and is tactful and skilful in achieving this.

The result is a recording that we can be proud of, and one which had been enhanced by Gary's musical and technical expertise and his professionalism."

Rob Elliott – Musical Director of Wessex Male Choir,
following their third recording with Just Music Production

CDs are great for fundraising

As well as raising the profile of your group, having recordings to sell at your concerts is a great way of raising funds. Just Music Production offers a range of packages from simple concert recordings to multi-day sessions so there's sure to be one that suits you.

The complete recording package

Just Music Production offers the personal touch. Gary will discuss your recording plans with you, and help you with your preparations to get the most out of the project.

At your recording session, Gary will guide you through the process and make it an enjoyable experience for everyone. Sensitive and helpful advice will enable you to achieve the best possible recording.

Following the session, you will receive a 'first edit' within a couple of weeks and you get the chance to discuss any changes you may want to make.

Just Music Production will undertake the artwork design, or can work with your own designer. Booklets, inlays and CD face are printed in full colour, providing you with a truly professional product that looks as good as it sounds, which you will be proud of for years to come.

If you would like to discuss a future recording with Just Music Production, or simply talk through some ideas, please use the contact details on the back of this leaflet.
